

**Improving swimming pool management
understanding of Health and Safety legislation
through attendance at the RLSS UK National Pool
Management Qualification (NPMQ)**

Di Standley
Chief Executive

Guard Life Save Life

Introduction

- What is the NPMQ?
- Why we developed it
- Summary of the survey results
- Course breakdown
- Delivery and learning

Guard Life Save Life

What is the NPMQ?

The NPMQ is focussed purely on

- Raising the standards of Health & Safety in Managing Swimming Pools

The NPMQ comprehensively covers

- The legal aspects of Pool Management

The NPMQ ensures that candidates are

- Fully aware of their responsibilities and their employers responsibilities with regards to Health & Safety legislation

Guard Life Save Life

What is the NPMQ?

The qualification has been designed

- To reflect the gaps in the research that we conducted with the Leisure Industry in 2008.
- To reduce the significant knowledge gaps between Senior Management and Junior Management with regards to Health & Safety management and more importantly application.
- To give candidates that attend the knowledge and the tools in order to apply this knowledge in a practical way.

Guard Life Save Life

Survey results

- The survey results clearly identified some concerning knowledge gaps in both understanding, and complying with, Law, Regulations and Guidance.
- The worrying factor is that the custodians of those policies, i.e. management staff, are either unclear on the content of the organisations' policy or simply do not have sufficient knowledge or training to be able to apply the systems and procedures their organisation has set out.

Guard Life Save Life

Survey results - Summary

A lot of basics in place;

- However some of the basic “hygiene” factors not happening consistently
- Difference in views between the Senior and Junior Managers
- Gaps in training identified – particularly by the Duty Managers themselves
- Non compliance with legal obligations
- Small but not insignificant numbers of drownings each year

Guard Life Save Life

Course breakdown

The NPMQ has been written

- To specifically answer the challenges found in the survey results
- In a legally orientated manner that ensures candidate understanding of health and safety responsibility
- In a format that ensures the information can be readily used in a practical way back at the candidates' facility
- To ensure aspiring, new and experienced Manager's will benefit
