water good
for washing**

**Leave your water bottles here, they will filled
up between 4 – 5 pm daily (we hope)**

**Water is now available from the taps (for how long
we do not know). This comes from the
underground tank which has a high bacterial
count. Before using it clean / disinfect your
tanks with chlorine (initially 1 Milton tablet
for 15 L give 25 ppm available chlorine and
then maintain with 1 tablets per 72 L /day to
keep available chlorine at 5 ppm- measuring
sticks for you tanks will be provided tomorrow)**
